fairmoos®

Green style for
communicative interior design.

Enjoy a natural view!

Bring the **peace and quiet of nature** into your spaces **with fairmoos** moss wall elements. These **unique design objects** are a stylish and harmonious solution for a wide range of purposes. Walls are just the beginning.

What is fairmoos?

Our fairmoos elements are made of a natural, **sustainably harvested lichen** called Cladonia Stellaris, which is preserved using a stabilization procedure and dyed in three different shades of green using non-toxic dyes. This creates a completely **eco-friendly material**.

What are the properties of fairmoos?

fairmoos was developed specifically for **creative interior design** and **event architecture**, and it **lasts several years**.

Thanks to the absence of electrostatic charge, it does not attract dust and is completely **maintenance-free**.

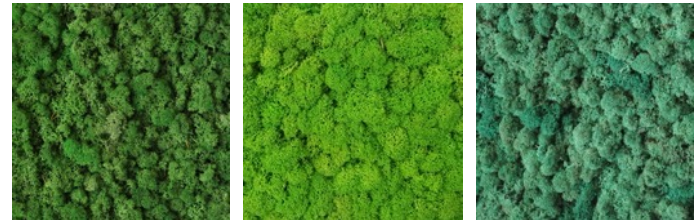

How do I install fairmoos?

Installation is very simple: Each element is made of 2 mm thick PCV, typically measuring **60 x 80 cm**, and can be glued or screwed in place. fairmoos can be mounted on **any wall or ceiling** with ease.

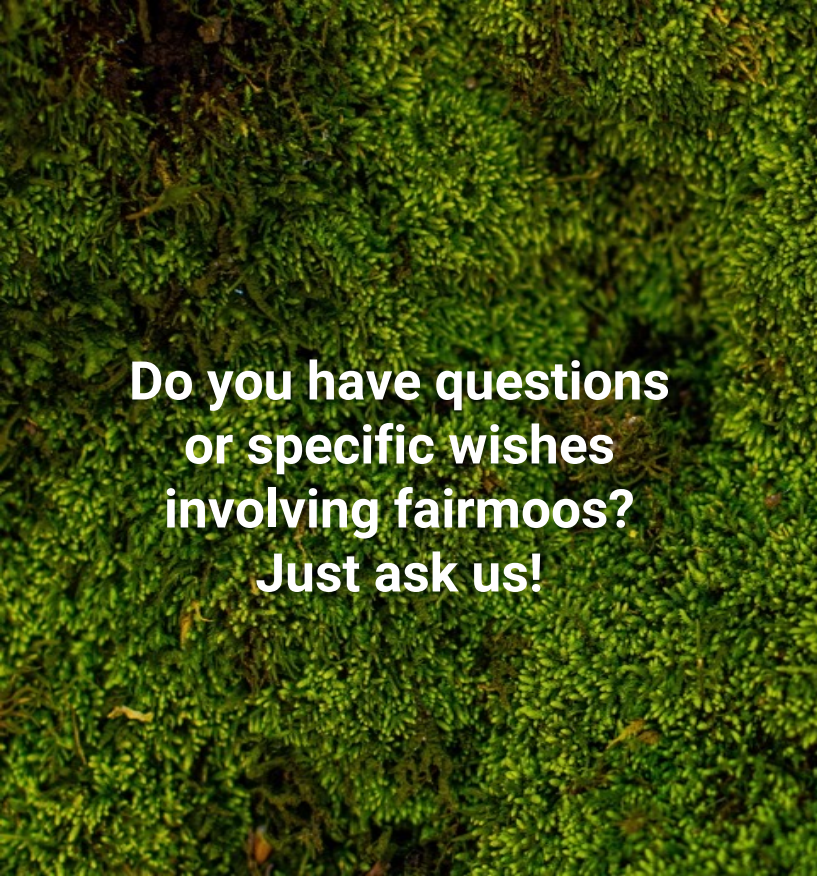

At a glance

- // natural, sustainably harvested lichen
- // other plant surfaces available
- // 3 different shades of green
- // elements measuring 60 x 80 cm
- // logo or lettering can be integrated
- // easy installation
- // lasts several years
- // does not attract dust
- // maintenance-free
- // sound-damping properties
- // requires at least 35% air humidity
- // keep away from heat sources
